EDUCATION

Government Engineering College, Bikaner, Rajasthan

Bachelor of Technology in Information Technology

Sep 2019 – Oct 2023

Delhi Public School, Bikaner

CBSE (Class XII)

63%

2019

PROJECTS

Customer Purchase Behavior Analysis | Python, Pandas, Matplotlib, Seaborn.

- Analyzed Diwali sales data to uncover customer buying patterns.
- Performed data cleaning, visualization, and exploratory data analysis (EDA) to identify high-value segments and product preferences.

Text Review Analysis & Rating Correlation | Python, NLP, Matplotlib.

- Extracted keywords from customer reviews to identify impactful themes for marketing.
- Discovered a correlation between review length and rating polarity, aiding in engagement strategy.

Public Health Trend Analysis (COVID-19) | SQL, Data Aggregation, Data Visualization.

- Analyzed COVID-19 data to identify regional trends and evaluate vaccination impact.
- Generated insights to support policy-making and public health decisions.

Housing Data Transformation Project | SQL, Data Cleaning, Data Warehousing.

- Cleaned and transformed housing datasets to improve accuracy and reduce redundancy.
- Prepared data for seamless use in BI tools like Power BI and Tableau.

Geospatial Restaurant Distribution Analysis | Python, Geopandas, Matplotlib, Clustering.

- Mapped restaurant locations using latitude and longitude data to detect geographic patterns.
- Performed clustering to reveal underserved zones and market opportunities.

Fake News Detection Using Machine Learning | Python, NLP, TF-IDF, PassiveAggressiveClassifier.

- Developed an ML model to classify news as real or fake using TF-IDF and Passive Aggressive Classifier.
- Improved digital content credibility through automated misinformation detection.

TECHNICAL SKILLS

SQL: Proficient in writing queries, joins, and data transformations on relational databases (MySQL, PostgreSQL).

Python: Hands-on with Pandas, NumPy, Matplotlib, and Seaborn for data analysis and visualization.

Excel: Skilled in pivot tables, VLOOKUP, Power Query, and basic VBA for automation.

Power BI & Tableau: Built interactive dashboards and reports for academic and personal projects.

Statistics: Knowledge of regression, A/B testing, forecasting, and hypothesis testing.

Version Control: Git, GitHub

Developer Tools: GitHub, VS Code

CORE COMPETENCIES

- **Data Visualization.**
- **Data Cleaning and Preprocessing.**
- **Data Analysis and Statistical Methods.**
- **Adaptability and Continuous Learning.**
- **Attention to Detail and Data Accuracy.**
- **Problem Solving and Critical Thinking.**
